Introducing Surfarm

Surface Urban Farming is a family owned agricultural business founded by professionals with extensive agricultural development experience. SURFARM is a specialist company that provides practical and competitive agri-innovations and management solutions to emerging agricultural challenges and innovations within South Africa. We employ our industry knowledge and experience through participatory approaches to capacitate ourselves and other farmers with the ultimate objective of achieving sustainable and economically viable businesses. We are currently on the planning and design stages of Anaerobic Lagoons construction.

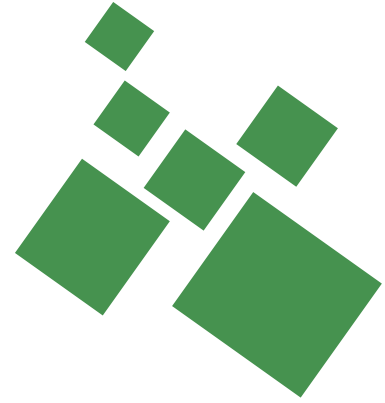

Our Produce

SERVICES OR PRODUCTS OFFERED

- Dorper Sheep Farming

To provide quality produce, Agro processing and customer satisfaction through innovative farming processes.

Sheep Farming

History & Benefits

A South African mutton breed developed in the 1930's from the Dorset Horn and Blackheaded Persian.

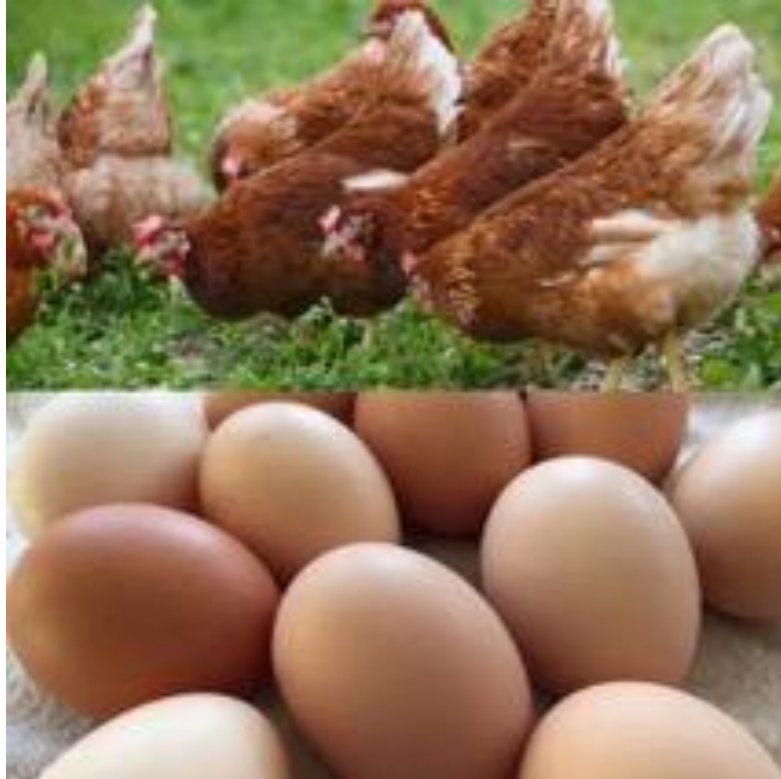

The Dorper grows rapidly and attains a high weaning weight which is an economically important characteristic in breeding of mutton sheep.

Activities on Site

- Currently we have 65 herd of sheep
- Dorper
- We sell our Lambs to meat-R-us & Rodeplaat Abattoir
- Private clients

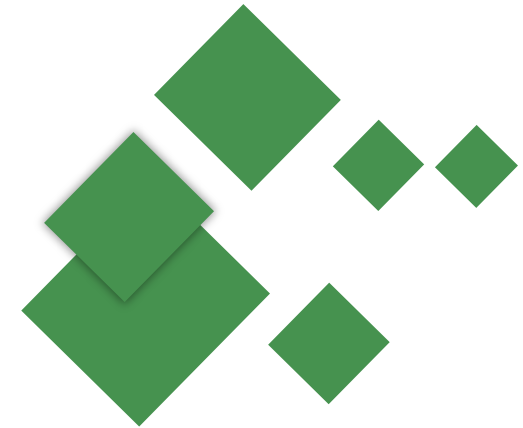

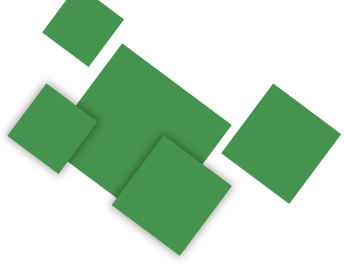

Free Range Eggs

Activities on Site

- We currently have 120 free range egg layers
- Our chickens are free to roam about and are fed grain and grass.

Herb and Vegetable Farming

Activities on Site

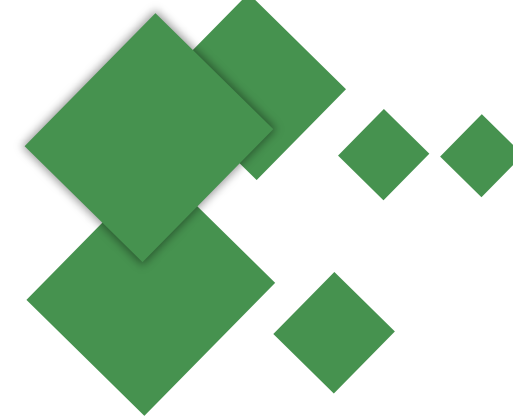

We cultivate Cucumber a widely cultivated plant in the gourd family, Cucurbitaceae. Together with Spinach and Lettuce, the herbs that possess aromatic properties that are used for flavoring food, in medicine, or as fragrances.

We have the capacity to cultivate many different foods with other profitable uses with minimum growing and harvesting input.

Aquaculture

- 24 tonne per annum Tilapia Farming
- Using automated RAS system
- Opportunity for investors to increase production capacity
