VISION

The coming together of the two successful holding companies into a single entity, SURFCON provides us with an opportunity to use our combined strengths, experiences and resources to build a future orientated company with an inherent ability to deliver a 360 degree turnkey solution to create not just houses but to build homes, and not only construct offices but develop working environments.

MISSION

At SURFCON, we strive to understand the expectations of our clients, partners and the communities we work in.

We believe that by creating a common understanding, we sow the seeds for successful project implementation, whilst building enduring relationships
